THE ULTIMATE GUIDE TO THE HCISPP

Be the Frontline Defense in Protecting Health Information
You prove every day that you have what it takes to protect patient health information and navigate a complex regulatory environment. But our profession is always changing, and even the brightest minds can benefit from having a guide on the journey to success. (ISC)² is here to help you discover the right path, create your plan and thrive throughout your career.

The Ultimate Guide to the HCISPP covers everything to know about the healthcare security and privacy certification. See how the HCISPP – and (ISC)² – can distinguish you as a globally respected security leader.
The HCISPP is ideal for information security professionals charged with guarding protected health information (PHI). It shows you have the knowledge and ability to successfully implement, manage and assess security and privacy controls for healthcare and patient information.

**Is the HCISPP Right for Me?**

The HCISPP is ideal for information security professionals charged with guarding protected health information (PHI). It shows you have the knowledge and ability to successfully implement, manage and assess security and privacy controls for healthcare and patient information.

**Experience**

To qualify for the HCISPP, candidates must pass the exam and have at least two years of cumulative, paid work experience in one or more knowledge areas of the (ISC)² HCISPP Common Body of Knowledge (CBK®) that includes security, compliance and privacy. Legal experience may be substituted for compliance and information management experience may be substituted for privacy. Of the two years of experience, one of those years must be in the healthcare industry.

A candidate who doesn’t yet have the required experience to become a HCISPP may become an Associate of (ISC)² after successfully passing the HCISPP exam. The Associate of (ISC)² will then have three years to earn the experience needed for the HCISPP certification.

**Discover Your Path**

See “Pathway to HCISPP Certification” for more information.

**Jobs that Typically Use or Require the HCISPP**

- Compliance Auditor
- Compliance Officer
- Health Information Manager
- Information Security Manager
- Information Technology Manager
- Medical Records Supervisor
- Practice Manager
- Privacy and Security Consultant
- Privacy Officer
- Risk Analyst
I pursued the HCISPP because I knew it would give clients confidence in my advice and recommendations. It was well worth the time and effort! Since earning this certification, I have received several job offers. But I enjoy working with private practices, since I believe they are the most vulnerable.

Debi Carr  
CEO and Consultant  
D. K. Carr and Associates, LLC  
Christmas, Florida, U.S.A.

Professionals who hold (ISC)² certifications and specifically the HCISPP gain instant credibility from clients, because clients understand the dedication required to become a member of this elite group. My firm’s experience combined with our HCISPP certifications have positioned us as the leaders in healthcare information security and compliance consulting.

Bryan Bell  
Senior Director, P2PE  
Coalfire Systems, Inc.  
Alpharetta, Georgia, U.S.A.

Being certified as an HCISPP has positively impacted my marketability and overall reputation with clients. The emphasis HCISPP certification places on different regulatory initiatives around the world deeply facilitates understanding of client needs from a global perspective.

Rema Deo  
Managing Director  
24By7Security, Inc.  
Coral Springs, Florida, U.S.A.

Holding the HCISPP immediately establishes you as a subject matter expert in the field. Not only does the certification require relevant experience, it also demonstrates your knowledge and advanced technical skills to colleagues and clients.

Kevin Henry  
Manager  
Meditology Services  
Philadelphia, Pennsylvania, U.S.A.

Fast Facts About HCISPPs

- Introduced in 2013
- Exam available at 882 locations in 114 countries
- (ISC)² certified members work in more than 160 countries globally
- HCISPPs are part of a network of over 125,000 cybersecurity professionals

SHOUT-OUTS

- Listed as one of the 8 certifications you need to compete in Health IT
  — Electronic Health Reporter
- Named ONE OF THE 8 VALUABLE SECURITY CERTIFICATIONS FOR 2017
  — Dark Reading
- Named one of the BEST Healthcare IT certifications for 2017
  — Tom’s IT Pro
Benefits of Being HCISPP-Certified

**Career advancement**
Raise visibility and credibility, improve job security and create new opportunities.

**Versatile skills**
Vendor-neutral so skills can be applied to different technologies and methodologies.

**Solid foundation**
Be better prepared to stem cyber attacks and inspire a safe and secure cyber world.

**Respect**
Differentiate yourself to employers, clients and peers.

**Community of professionals**
Gain access to (and respect from) a global community of like-minded cybersecurity leaders.

**Higher salaries**
On average, (ISC)² members report earning 35% more than non-members.

**Expanded knowledge**
Reach a deeper, better and broader understanding of the common body of knowledge for cybersecurity.

**Stronger skill set**
Expand the skills and knowledge needed to fulfill organizational duties.
Benefits of (ISC)² Membership

Once you earn your HCISPP, you become an (ISC)² member and part of a professional community that never stops learning and growing. You also gain access to a full suite of benefits and resources for continuing education and development:

» Free online (ISC)² Professional Development Institute courses
» Free subscription to InfoSecurity Professional Magazine
» Member pricing for (ISC)² events
» 50% off official (ISC)² textbooks
» Deep discounts on industry conferences
» Expert-led webinars on the latest security issues
» The ability to join or start a local (ISC)² Chapter
» Volunteer opportunities
» Safe and Secure Online program
» Professional recognition through (ISC)² Awards Programs
» Digital badges to promote expertise
» (ISC)² Member Perks

Digital Badges Show Off Your Skills

A digital badge is the cool (and secure) way to share your credential online. You can attach it to a website, digital resume, email signature or social network. And with one simple click, employers and colleagues can verify your credential – and all that’s required to earn it.

Easy to claim and use, digital badges let you…
» Share abilities online
» Prove verification of abilities in real time
» Show the experience and knowledge required to earn your HCISPP
The HCISPP exam evaluates expertise across seven security domains. (Think of domains as topics you need to master based on your professional experience and education.) Passing the exam proves you have the knowledge and ability to successfully implement, manage or assess security and privacy controls for healthcare and patient information.

### HCISPP Exam Overview

Pathway to HCISPP Certification

Obtain the Required Experience
To qualify for the HCISPP, candidates must have at least two years of cumulative, paid work experience in one or more of the six domains:

- **Domain 1.** Healthcare Industry
- **Domain 2.** Information Governance in Healthcare
- **Domain 3.** Information Technologies in Healthcare
- **Domain 4.** Regulatory and Standards Environment
- **Domain 5.** Privacy and Security in Healthcare
- **Domain 6.** Risk Management and Risk Assessment
- **Domain 7.** Third-Party Risk Management

If you don’t have enough experience yet, you can still pass the HCISPP exam and become an Associate of (ISC)² while you earn the work experience needed.

Study for the Exam
Many self-study resources are available from (ISC)² – the creator and keeper of the HCISPP CBK – to help you prepare with confidence. Some HCISPP candidates pass the exam with self-study, and many choose to attend an Official (ISC)² Training seminar to review and refresh knowledge before sitting for the exam.

Pass the Exam
Candidates are given three hours to complete the 125-item HCISPP exam. If you’re ready now, schedule your exam by creating an account with Pearson VUE, the leading provider of global, computer-based testing for certification and licensure exams.

Get Endorsed
After you pass the exam, you will have nine months from the date of the exam to complete the (ISC)² endorsement process.

Earn CPEs
Once you are certified, you become a member of (ISC)² and recertify every three years. Recertification is accomplished by earning continuing professional education (CPE) credits and paying an Annual Maintenance Fee (AMF) to support ongoing development.

| 60 CPEs | U.S. $125 AMF | 3 years |

Members with multiple (ISC)² certifications only pay a single AMF.
Free CPE Opportunities

The CPE requirement helps you maintain your competencies following initial certification. By developing and enhancing skills through CPE activities, you make an important investment in yourself while increasing value to customers and employers.

(ISC)² makes it possible for you to earn all your CPE credits without spending a dime.
