Achieving a certification is an investment in a career path, as well as an investment in people and we want to make sure that investment pays dividends, now and in the future. Around the world (ISC)² certifications are accredited, recognized and endorsed by leading organizations and industry bodies. We value these partnerships because they ensure our certifications meet or exceed the highest standards and are aligned with the professional goals of cybersecurity professionals and the operational needs of employers.

### Governmental

#### Cyber Security Agency (CSA)

Cyber Security Agency of Singapore and (ISC)² collaborate to enhance the professional pipeline and quality of the cybersecurity workforce, and to raise awareness about the need for continuous improvement for specialized cybersecurity competencies in Singapore.

Learn More

#### Department of Defense (DoD)

The (ISC)² CISSP®, SSCP®, CCSP®, HCISPP®, CAP®, CSSLP®, CISSP-ISSAP®, CISSP-ISSEP®, CISSP-ISSMP® certifications have met Directive 8570.1 requirements and are approved by ANSI to the ISO/IEC Standard 17024.

Learn More

#### Data Security Council of India

Data Security Council of India and (ISC)² are strategic partners addressing the development and need of a skilled cyber security workforce in India and the region. (ISC)² is a member of the NASSCOM SSC-DSCI Working Group for designing and developing the Qualification Packs aligned with job roles in Cyber Security.

Learn More

#### HM Revenue & Customs (HMRC)

HM Revenue & Customs (HMRC), the UK’s tax, payments and customs authority has granted (ISC)² Approved Professional Organizations and Learned Societies status. This status validates the efforts of (ISC)² and its members to advance cybersecurity knowledge and skills, while UK members also qualify for tax relief on their own AMF payments.

Learn More

#### Hong Kong Monetary Authority

(ISC)² CISSP, CCSP and SSCP certifications are included under the HKMA’s Enhanced Competency Framework on Cybersecurity (ECF-C) as options available to banking practitioners for meeting the ECF-C requirement.

Accreditations, Recognitions and Endorsements

Tokyo Metropolitan Police Department (TMPD)

The Tokyo Metropolitan Police Department (TMPD) has signed a Memorandum of Understanding (MOU) to enhance cybersecurity capability for law enforcement officers. As part of the partnership, the TMPD will adopt (ISC)² credentials for selected members within law enforcement agencies throughout Japan and will provision official Common Body of Knowledge (CBK) training classes to provide its officers the highest quality cybersecurity training.

NHS Digital

(ISC)² partners with NHS Digital in support of the Cyber Security Programme (CSP). Since its inception, the program has been expanded by the Cabinet Office’s National Cyber Security Programme (NCSP) following a bid made jointly by HSCIC and the Department of Health.

State Government of Victoria

The State of Government of Victoria has signed a Deed of Standing Offer with (ISC)² to provide public sector employees access to (ISC)² certification CBK training resources and exams including the CISSP, CCSP, SSCP, CSSLP and HCISPP. This is in line with Victoria’s Cyber Strategy which aims to upskill the public sector in cyber security.

Australian Information Security Association (AISA)

The Australian Information Security Association (AISA) is the peak industry body for cyber security professionals in Australia. AISA has signed a strategic partnership with (ISC)² that recognises (ISC)² certifications as particularly relevant to their members. AISA provide its members CISSP, SSCP and CCSP CBK certification training. AISA’s partnership with (ISC)² also sees AISA host (ISC)² Chapters within AISA Branches under a Special Interest Group (SIG) agreement.

American National Standards Institute (ANSI)

(ISC)² is the first information security certifying body to meet the requirements of the American National Standards Institute (ANSI) ISO/IEC Standard 17024.

Australian Computer Society (ACS)

ACS is the professional assessment body for information technology professionals which recognize professional competence and ongoing commitment to ethical practice. The ACS recognises the (ISC)² CISSP and CSSLP as valid demonstration of knowledge, skills and experience to accredit towards the Certified Professional (Cyber Security) designation, while the SSCP is accepted as valid demonstration of knowledge, skills and experience to accredit towards the Certified Technologist (Cyber Security) designation.

About (ISC)²

(ISC)² is an international nonprofit membership association focused on inspiring a safe and secure cyber world. Best known for the acclaimed Certified Information Systems Security Professional (CISSP®) certification, (ISC)² offers a portfolio of credentials that are part of a holistic, programmatic approach to security. Our membership, more than 158,000 strong, is made up of certified cyber, information, software and infrastructure security professionals who are making a difference and helping to advance the industry. Our vision is supported by our commitment to educate and reach the general public through our charitable foundation – The Center for Cyber Safety and Education™.
