

Systems Security
Certified Practitioner

Without the right people, no organization is secure. Attacks on organizations' information assets continue to escalate while attackers refine and improve their tactics. Employers know the best way to combat these assaults starts with qualified information security staff armed with appropriate practices and controls. That's where the SSCP comes in.

The SSCP certification is the ideal credential for those with proven technical skills and practical, hands-on security knowledge in operational IT roles. It provides industry-leading confirmation of a practitioner's ability to implement, monitor and administer IT infrastructure in accordance with information security policies and procedures that ensure data confidentiality, integrity, and availability.

Backed by (ISC)², the globally recognized, not-for-profit organization dedicated to advancing the cyber, information, software, and infrastructure security field, the SSCP indicates a practitioner's technical ability to tackle the operational demands and responsibilities of today's information security practitioners.

For the **NEXT GENERATION** of **IT PROS**

Who Should Become an SSCP

- » Network Security Engineer
- » Systems Administrator
- » Security Administrator
- » Security Specialist
- » Security Analyst
- » Systems/Network Analyst
- » Systems Engineer
- » Security Consultant
- » Network Administrator
- » Database Administrator

One of the
BEST
CERTIFICATIONS
for those working
in IT, from increased
earning potential
to staying ahead
of the curve.

Steps to Getting Certified

1 Obtain the Required Experience

Candidates must have a minimum of 1 year cumulative paid full-time work experience in 1 or more of the **7 domains** of the SSCP CBK:

- » Access Controls
- » Security Operations and Administration
- » Risk Identification, Monitoring, and Analysis
- » Incident Response and Recovery
- » Cryptography
- » Networks and Communications Security
- » Systems and Application Security

Don't have enough experience? Check out our Associate program at www.isc2.org/associate.

2 Take the Exam

Candidates are given three hours to complete the **125 question** SSCP exam.

Register at your local Pearson Vue Test Center:
www.pearsonvue.com/isc2

3 Complete the Endorsement Process

Once you successfully pass the exam, you will have nine months from the date of the exam to complete this process.
www.isc2.org/endorsement

4 Maintain Your Membership

Once you are certified, you become a member of (ISC)². **Recertification is required every three years.** This is accomplished through earning Continuing Professional Education (CPE) credits and paying an Annual Maintenance Fee (AMF).
